Profile Summary:-

AWS DevOps Engineer with 2.6 years of professional experience specializing in cloud infrastructure, automation, and security. Expertise in deploying, securing, and optimizing applications in cloud environments to ensure high availability, cost-efficiency, and robust security. Proven ability to bridge the gap between development and operations to accelerate code delivery and improve system performance.

Technical Skills:-

- **Cloud Platforms:** Amazon Web Services(AWS)
- **Security Tools:** AWS WAF, GuardDuty, AWS Inspector, IAM.
- **IaC & Automation:** Terraform, Jenkins, CI/CD Pipelines.
- **Containerization & Orchestration:** Docker, Kubernetes (EKS)
- **Monitoring & Logging:** Opscruise, CloudWatch, CloudTrail.
- **Version Control & Collaboration:** Git, GitHub, JIRA.
- **Operating Systems:** Linux, Windows.

Certification:

AWS Certified Solutions Architect – Associate,
Validation Number :- CVCRD121M1RE1K54.

Work Experience:-

Technology Associate – AWS

Locuz Enterprise Solutions Pvt. Ltd | Oct 2023 – Present | Hyderabad

Roles and Responsibilities:

- Managed AWS cloud resources including EC2, S3, EBS, VPC, and IAM, ensuring compliance with AWS security best practices.
- Configured IAM roles and policies to implement least-privilege access controls and secure resource access.
- Integrated AWS WAF to protect applications from common web exploits and attacks.
- Conducted encryption of volumes to enhance data security and maintain compliance with industry standards.
- Optimized AWS infrastructure costs while ensuring high security and availability.

- Developed and maintained Terraform modules for automating secure provisioning of EC2 instances, VPCs, and EKS clusters.
- Led secure migration of servers between AWS accounts, following best practices for cloud security.
- Participated in incident response activities, offering on-call support to ensure system uptime and resolve security incidents.
- Supported continuous security monitoring using AWS GuardDuty and AWS Inspector for proactive vulnerability management.
- Continuously updated technical knowledge and skills to stay abreast of new technologies and industry trends.

Associate Cloud & DevOps Engineer

Innominds Software Pvt. Ltd | Aug 2021 – Aug 2023 | Hyderabad

Roles and Responsibilities:

- Automated the provisioning and management of AWS infrastructure using Terraform, including VPCs, subnets, EC2, S3, EKS, and ECR.
- Deployed and managed Kubernetes clusters (EKS) using Terraform, ensuring robust security via IAM roles and role-based access controls (RBAC).
- Utilized Docker for containerizing applications and managed Docker images through Docker Hub and Amazon ECR.
- Implemented security monitoring for cloud-hosted applications using Opscruise, proactively identifying and addressing security vulnerabilities.
- Collaborated with development teams to ensure seamless integration and secure deployment of cloud infrastructure and applications.
- Utilized JIRA for task tracking and project management, ensuring timely and successful project delivery.
- Managed day-to-day activities of the AWS cloud environment, providing DevOps support to development teams.

Academic Profile:

Bachelor of Engineering(Computer Science & Engineering) Vasavi College of Engineering under Osmania University.
