SUMMARY

Driven by a passion for technology and continuous improvement, I honed my skills in Python, MySQL, Power BI, and data analysis at Innomatics Research Labs Pvt. Ltd, showcasing my ability to learn rapidly and deliver projects with precision. My proficiency in collaborative tools and a keen eye for detail underscore my commitment to excellence in web and data science domains.

EDUCATIONAL QUALIFICATION

Qualification	College/ School	Board/ University	Year of passing	CGPA
B.TECH (CSE)	VIDYA JYOTHI INSTITUTE OF TECHNOLOGY,MOINABAD	JNTUH	2020-2024	7.14
INTERMEDIATE	NARAYANA JUNIOR COLLEGE	INTERMEDIATE BOARD	2018-2020	9.84
10th	SRI VIDYA SECONDARY SCHOOL	CBSE	2017-2018	6.97

CERTIFICATIONS AND TRAINING

Company: Innomatics Research Labs Pvt. Ltd

Course: Data Analysis (Completed), Data Science (Ongoing) Duration: 6 months

- Acquired skills in Python, MySQL, Power BI, Pandas, NumPy, Seaborn, Matplotlib, SciPy
- Focused on data analysis and visualization.
- Currently learning machine learning concepts as part of the ongoing Data Science course.

PROJECTS

Title: **Exploratory Data Analysis on Secondhand Car Sales Data**

Tools & Technologies: Python, Pandas, NumPy, Matplotlib, Seaborn, Power BI, RegEx

- Performed data cleaning, preprocessing, and feature engineering to extract key insights.
- Utilized RegEx (Regular Expressions) for text data extraction and processing.
- Developed new features like Price per_KM, HM EMI, Car Condition, Warranty Status, Car_Age, Depreciation_Rate to enhance data understanding.
- Created visualizations to analyze price trends, depreciation rates, and factors affecting secondhand car prices.
- Provided actionable insights to optimize pricing strategies for secondhand car sellers.

Title: **Library Management System using MySQL**

Tools & Technologies: MySQL

- Designed and implemented a relational database for an efficient Library Management System.
- Developed a normalized data model with multiple tables: Books, Authors, Publishers, Borrowers, Loans, Library Branches, and Copies.

- Created complex SQL queries to manage book availability, borrowing, returns, and overdue tracking.
- Implemented foreign key constraints to maintain referential integrity across tables.
- Generated reports and insights on book availability, loan records, and most borrowed books.

TECHNICAL SKILLS

Programming Languages : Python, Basic java
Software tools : MySQL, Power BI, Excel.
Web Development Technologies : HTML, CSS, Bootstrap
Data Science Tools : Pandas, NumPy, Seaborn, Matplotlib, SciPy

ACADEMIC ACHIEVEMENTS

- Accomplished a Certification in Python language from Innomatics research labs.
- Accomplished a Certification in Java language from Apna college.
- Completed an online course and certified in the Python language from cisco.
- Completed web development course at Teachnook with certificate.

EXTRA CURRICULAR ACTIVITIES

- Recognized as one of the top team performed in cricket championship conducted by VJIT.
- Secured 1 prize in gaming conducted by VJIT.
- Performed in power point presentation.

PERSONAL TRAITS

- Optimistic.
- Strong at group dynamics.
- Adaptability.
- Time management.
- Leadership skills.
