

BASHARAT AHMAD WAGAY

AWS Cloud Engineer

8493080472 | basharatwagay9@gmail.com | Manzgam, Kulgam J & K

PROFILE

I am an AWS Cloud Engineer with 3 years of experience in designing and managing cloud solutions. Skilled in key AWS services like EC2, S3, RDS, CloudWatch and Lambda. I have a solid foundation in cloud architecture and automation. I enjoy optimising cloud infrastructure to improve performance and reduce costs. I am eager to continue learning and growing in the field of cloud computing and contribute to innovative projects.

WORK EXPERIENCE

ASSOCIATE INFRASTRUCTURE CLOUD ENGINEER

Securonix

Feb 2022 - Present

Key responsibilities:

- Assisted in the deployment and management of AWS cloud infrastructure, focusing on resource optimisation and cost management.
 - Provided technical support and troubleshooting for cloud-related issues, maintaining high levels of customer satisfaction.
 - Managed and optimized AWS resources, including EC2 instances, S3 buckets, and RDS databases, resulting in overall improvement in performance and cost savings.
 - Automated deployment processes using Terraform.
 - Monitored cloud environment using AWS CloudWatch, and proactively resolved issues to maintain system uptime and reliability.
 - Conducted regular security assessments and implemented necessary measures to safeguard cloud resources.
 - Implemented auto-scaling and resource optimisation, resulting in a 25% reduction in infrastructure costs.
-
